

LogHogger's Suggestions for Sculpture Care

For Outdoor Use

We recommend applying at least 3 - coats of "Cabot's" Australian Timber Oil. This product is available in a variety of tinted colors. If you would like for the sculpture to remain looking like it does; apply 3 - coats of Cabot's "Clear Solution." This should not change the appearance of your piece; it will just make it appear wet. The product you choose will need to be re-applied once or twice a year if in direct weather exposure.

For Indoor Use

After following the above steps, apply 3 - coats of exterior grade polyurethane or spar urethane.

All products listed are available at: Lowe's, Menard's, and more Ace Hardware stores.

Thanks for supporting our event!
